

[90 min] DO: Assignment 6 / Build Triggers

Due Jul 22 by 9:29am **Points** 100 **Submitting** a file upload

Format

Individual.

Instructions

Continue with the course database designed in Assignment 3. Construct at least one trigger to either manage a constraint, a derived attribute, or create an audit trail. Update the database if necessary. Which (one) trigger you create and on which table is your choice, but in your submission explain why you built that trigger and what its intended purpose is.

Submission

Submit your database (as a saved binary database file) and your script for your trigger.

A6.Su20 Rubric				
Criteria	Ratings			Pts
Trigger definition is shown and explained.	60.0 pts Full Marks	40.0 pts Definition shown but not explained	0.0 pts No Marks	60.0 pts
Trigger functions as described and working of trigger is demonstrated.	40.0 pts Fully works	20.0 pts Partially works	0.0 pts Does not work	40.0 pts
				Total Points: 100.0
